COMPLETE LINE OF CRUSHING EQUIPMENT

With a complete line of crushing, screening, stacking and specialty equipment, Lippmann backs up its reputation as the industry's best-in-class. And Lippmann remains one of the only OEMs in the industry that can offer both a complete range of standard solutions and the flexibility to create custom designs for your specific processing application.

“When you are going to buy a jaw crusher you have to have some meat there. Lippmann is a strong, robust frame. It’s been a great thing for us. I’m a third-generation operator of Lippmann equipment, and we have jaws that have been running since before I was born.”

Hans Dawson

OWNER/OPERATOR, LANNON STONE PRODUCTS

LEGENDARY PERFORMANCE

Built to handle the toughest and heaviest applications, Lippmann crushing equipment has been engineered for years of reliable performance.

With our legendary, robust frame, the Lippmann jaw forces rock into the chamber and attacks it, getting your job done effectively and efficiently.

LIPPMANN

EXPERIENCED PARTNERS

It's the people behind the products that set us apart. Lippmann brings a team of accessible, knowledgeable and experienced experts to every project with a focus on quality. Our commitment to customer service covers site survey to installation and beyond.

By truly listening to our customers and dealers – and understanding your challenges – we deliver solutions tailored to you. What we promise is exactly what we deliver.
